

Request for South Carolina’s federal elected officials to urge the completion of the Southern Border Wall to protect our Republic

WHEREAS, our southern border is in complete and utter chaos since President Biden and Vice President Harris took office on January 20, 2021 at 12:00 PM est. just 268 days from this the 15th of October 2021; and

WHEREAS, Customs and Border Protection revealed that 188,829 migrants were stopped at the southwest border in June of 2021, a 20-year high! The Border Patrol warns of danger among some of those illegals crossing the US-Mexico border. Although the President has refused to actually address the border crisis it continues to hurt his presidency; and

WHEREAS, Since the beginning of the Biden administration, enormous amounts of money have and are being spent by the Department of Homeland Security, Housing and Urban Development and Health and Human Services, in order to accommodate illegal aliens in hotel rooms, to pay their medical, educational expenses and travel expenses. This has gone unreported as well. Every taxpayer in this country, conservative or liberal, deserves to know where their hard-earned tax payments are going and who is benefitting from their hard work. These funds are not being spent on homeless and poor American citizens; and

WHEREAS, this administration has ordered the Border Patrol administrative staff supervisors to detail over 600 border patrol agents assigned to our Northern Border to our Southern Border on a monthly basis. The Department of Homeland Security is spending over \$1,000,000.00 a day to house and feed these agents in addition to paying all travel and any medical attention needed; and

WHEREAS, after taking office, President Biden placed a 60 day halt on construction of the border wall and the construction equipment that remains on site as of this date sitting idle at the border is costing the American taxpayers an estimated \$6,000,000 per day; and

WHEREAS, Senator James Lankford (R-OK) on the Senate Homeland Security and Governmental Affairs Subcommittee released a report on \$2 billion in wasted taxpayer dollars to contractors ‘NOT TO BUILD THE BORDER WALL’ ; and

WHEREAS, the Center for Immigration Studies reports that President Biden is spending as much as \$3 Million per day ‘Not to Build the Border Wall; and

WHEREAS, The Biden/Harris Administration’s efforts in dealing with the southern border have come under serious rebuke by the Republican Party and numerous border-region Democrats. Some of these illegals are bringing in diseases that had been eradicated years ago,

some are increasing the number of the vicious/murderous MS-13 gang members, while still others are smuggling more illegal drugs, engaging in child exploitation, female sex trafficking and terrorists into our midst. The Biden Administration while all of this is taking place is tying the hands of our Border Patrol agents who in spite of the present administration's efforts to stifle the enforcement of our border laws are managing to arrest a few terrorists attempting to illegally cross our border; and

WHEREAS, it has been reported by Adam Casalino on October 11, 2021 that at the present time a migrant activist is leading a horde of 20,000 plus illegals towards our southern U.S. Border with Mexico and he made it clear they expect to enter the U.S. regardless of their legal standing. This same individual actually proclaimed "this is war and they are ready to fight our soldiers"; and

THEREFORE, BE IT RESOLVED, That the Beaufort County Republican Party (BCRP) urge Senators Tim Scott, Lindsey Graham and all of our elected U.S. Congressional Representatives, both Republican and Democrat to unite by requiring the Border Wall to be completed as soon as possible to protect our Republic:

1. From the Public Health crisis crossing our southern border
2. From the Economic impact the illegals are burdening our southern border states
3. From the serious impact on our southern border states' medical systems and hospitals
4. From the overcrowding of our already over burden and broken public school systems
5. From the illegals bringing additional covid-19 medical cases into our Republic and increasing the spread of covid-19 throughout the country
6. From importing additional members of MS-13 criminal street gangs
7. From exploiting children and child sex trafficking
8. From exploiting women through sex trafficking and sex slavery
9. From many illegals bring in new strains of diseases that had been irradiated years ago
10. From the onslaught of illegals who think they have a right to jump the line and get ahead of those immigrants who are following the process to enter legally

Kevin Hennelly
Chair, BCRP
